Howland Wood, Esq., Curator,  
American Numismatic Society,  
Broadway between 155th and 156th Streets, City.

My dear Mr. Wood:-

Some time ago you and your associates very kindly gave me some casts of coins to use in the decoration of the safe deposit department of the Rhode Island Hospital Trust Company, Providence, Rhode Island.

What we used was the Fugio cent, both reverse and obverse, of the William Wood's Series, as illustrated on plate 4 of your catalogue, 1914 Exhibit; also reverse and obverse of the Crosby 2-B, Nova Constellatio Series, as illustrated on plate 5 of the same catalogue. They are very popular with the Bank people and they are anxious to have a description of them for a pamphlet they are getting up for the dedication of their building on December 3rd. Could you have some one write a little sketch of these two coins that would interest the layman, or could you let me know where I could find one? I would appreciate it very much and would be glad to pay for any trouble it may put you to.

Very sincerely yours,

*Edward P. York*

Edward P. York, Esq.,  
50 East 41st Street,  
New York.

Dear Sir:-

Mr. Wood has asked me to comply with your request of November 13th, and in doing so I am enclosing a short sketch of the facts relating to the two pieces mentioned and the circumstances of their issue. This has necessarily been written somewhat hurriedly, and is only intended to give you the outstanding points, and you are at perfect liberty to use it in any way that you see fit.

Yours very truly,

Ass't to the Curator.

50 East 41st Street,  
New York.

My dear Mr. York:-

I am enclosing the photographs of the two pieces that you requested by telephone this morning. I found we had these already and do not have to have them ~~them~~ specially taken, therefore there is no charge for them.

Yours very truly,

Ass't to the Curator.
